Blackboard Rubrics

A rubric is an assessment tool listing evaluation criteria for an assignment, and provides a way to convey to students your expectations for the quality of completed assignments. Rubrics can help students organize their efforts to meet the requirements of an assignment, and you can use them to explain evaluations to students. Rubrics can help ensure consistent and impartial grading.
To access rubrics in Blackboard 9, go to the “Control Panel” under “Course Tools.”
You can create rubrics or import rubrics from other courses.
You can associate Rubrics with:

- Assignments
- Blogs and journals
- Wikis
- Discussion board threads and forums
- Test question types: Essay, File Response, Short Answer
When you create or edit one of these content types you can opt to associate a rubric with it.
