

Copying Previous Course Information to a New Semester

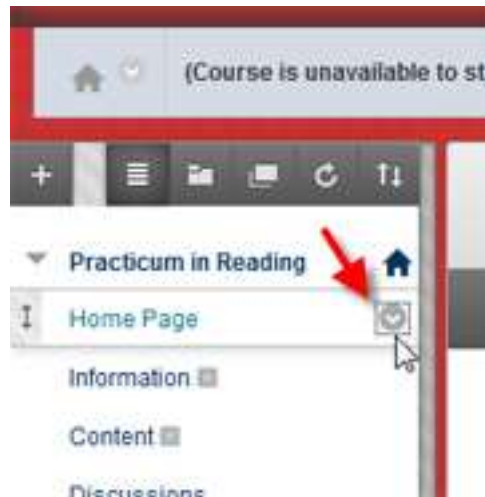

- [Login](#) to the NEW course
- [Delete](#) links

Go to the course in Blackboard where you want the content from the previous course.

Delete the links that are there by default. Content will be added to the course and these links will be redundant and confused with my content. Delete everything. Any of these links can be added back later if you decide you need them.

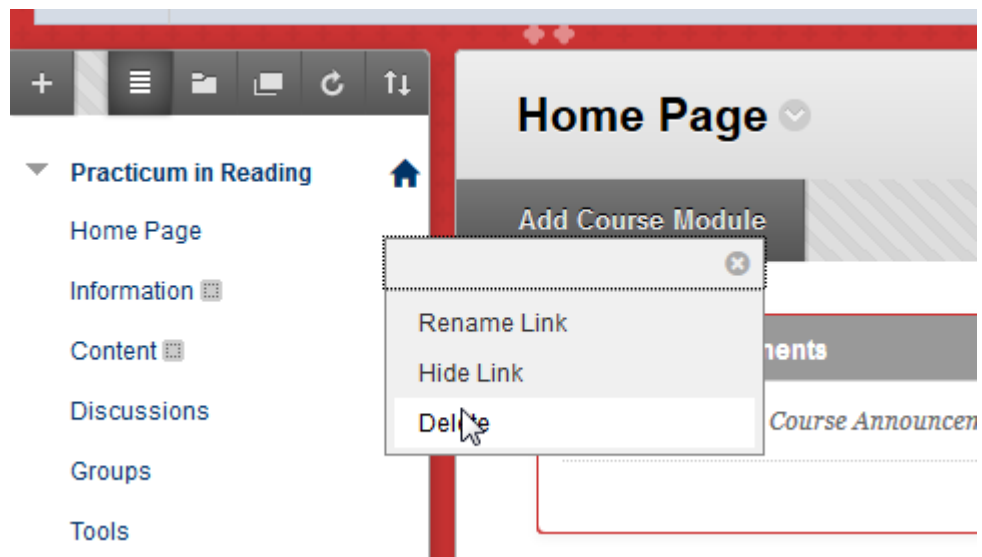

- **Rollover** the drop-down arrow

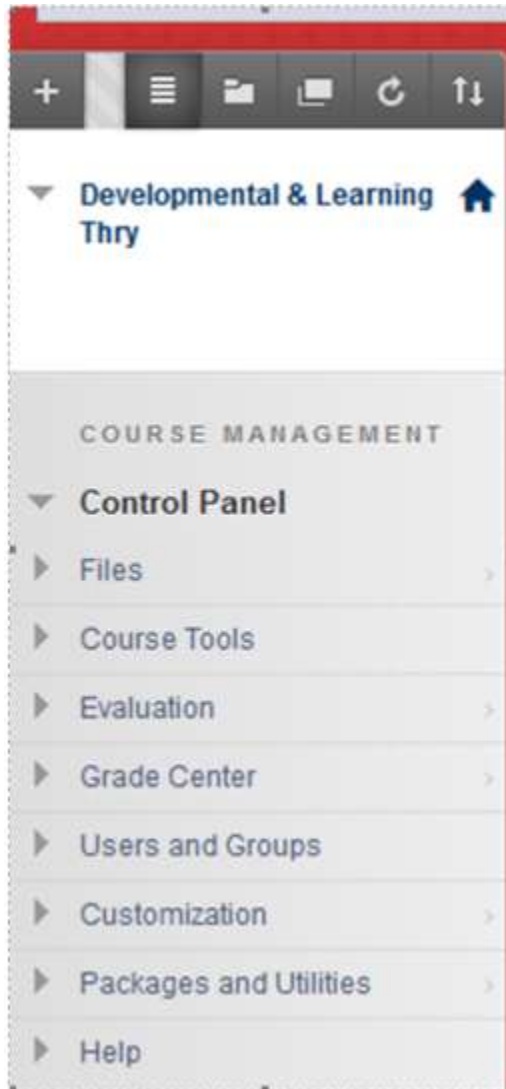

To delete the links, Roll over the link and look for the drop down arrow on the right.

- **Click** the down arrow
- **Select** "Delete"

Click on the down arrow to reveal the options menu. Select "Delete". Do this for each link.

Here is how my menu looks just before I import my content.

To copy the materials from the previous course to the new one:

- **Go to** the previous course
- **Go to** the “Control Panel”
- **Click** on “Packages and Utilities”
- **Click** on “Course Copy”

Log into the course that has the content you’d like to move to another course.

Navigate to the Control Panel in the bottom left of your course screen.

- **Select** “Copy Course Materials into an Existing Course”

If you don't choose “Copy Course Materials into an Existing Course” you won't see the “Browse” button.

1. Select Copy Type

Select Copy Type

Copy Course Materials into an Existing Course ▾

- **Click** “Browse”

2. Select Copy Options

* Destination Course ID

A small browser window will pop up that lists your other course. **Note: If you choose the wrong course and click submit on the next page, any data in that course may be overwritten. Please double-check that you're moving files to your intended course.**

- **Select** the course you want to copy into
- **Click** “Submit”

Select the checkbox to the left of the intended course, click “Submit” and you’ll return to the previous setup page.

- Assignments

Adaptive Release Rules for Content

User criteria will not be captured if enrollments are not included. Assign submissions will not be captured if the Grade Center columns and setting included.

Here you have the option to move over tests, assignments, calendar events, journals, announcements, Discussion Boards, and more. For a complete course copy use the “Select All” button.

- **Deselect** “Announcements”
- **Select** “Include only the forums with no starter posts”

A screenshot of the Blackboard course copy options. The options are listed as follows:

- Announcements
- Blogs
- Calendar
- Collaboration Sessions
- Contacts
- Content Alignments
- Discussion Board

Under the Discussion Board option, there are two radio button options:

- Include starter posts for each thread in each forum (anonymized)
- Include only the forums, with no starter posts

Red arrows point to the 'Announcements' checkbox and the 'Include only the forums, with no starter posts' radio button.

If you don't want all your announcements from the old course moved to the new course, uncheck the box. You won't want all the student posts from the old semester so select the second option under Discussion Boards.

- Click "Submit"

Go with the defaults for the #3 and #4.

3. File Attachments

Select an option for copying your file attachments. If content will be reused in a different course, copying links and copies of the content is the recommended option. Click **More Help** for additional information.

Course Files

 Copy links and copies of the content

Copy links to Course Files

Copy links and copies of the content (include entire course home folder)

4. Enrollments

Copy enrollments for all users in the course. This option does not copy user records in the course, such as grades. User records are only copied with Exact Copy.

Enrollments Include Enrollments in the Copy

 **Leave this blank. You don't want any enrollments copied over.**

5. Submit

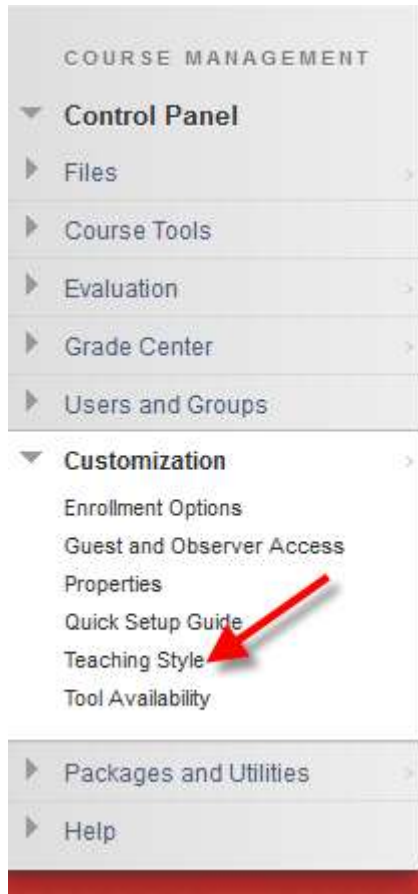

Click **Submit** to proceed. Click **Cancel** to go back.

The copy process will begin. It can take several minutes to complete. You will get an email when it is done.

Customize Your Course Menu

To change your course menu colors and text use the “Teaching Style” link on the Control Panel under “Customization.” Options are also available under this link to change the overall look and feel of the course.
